\*\* The calculated "Weight" = (Successful kicks + Points) x Percentage \*\*

To balance out the inadequate results of 100% kickers who only played a few games and with only a small number of successful kicks.

\* The "Points" only reflects those gained from place kicks and it excludes any additional points obtained from scoring tries or drop goals.

### SUPER RUGBY - 2014 - TEAM KICKING STATISTICS

Team	Successes	Attempts	%	Points
Bulls	80	96	83.3%	224
