** The calculated "Weight" for "Players Kicking Statistics" = (Successful kicks + Points) x Percentage **

This is to balance out the inadequate results of 100% kickers who only played a few games and with only a small number of successful kicks.

* The "Points" only reflects those gained from place kicks and it excludes any additional points obtained from scoring tries or drop goals.

SUMMARY - TEAM KICKING STATISTICS - SUPER RUGBY 2019 - Page 9

Team	Country	Successes	Attempts	%	Weight	Points
Sunwolves	Japan	50	56	89.3%	153.6	122
